

261 Rope Mill Parkway, #3, Woodstock, GA 30188 (770) 592-3823 www.traxxion.com

R6 Tank Slider Installation Instructions

1. Clean the sides of your gas tank with the supplied alcohol wipe.
2. Each slider is marked on the bottom edge with an “L” for Left or “R” for Right. Locate the proper slider for the appropriate side of your tank.
3. Place the slider against the tank and make sure of the location. Once you remove the tape backing and stick the slider on the tank it will not come off.
4. Once you have the proper positioning remove the tape backing and apply slider to tank.
